Transportation

Transportation is not provided for all students on campus and is therefore not an accommodation mandated under Section 504/ADA. Students are responsible for arranging personal mobility needs. In an event of an emergency, any student may seek assistance from the Department of Public Safety by calling 859-572-5500.

If there is a class field trip and/or special event to which transportation is provided to the student for that purpose, the professor or person sponsoring the event will provide accessible transportation for the student.
